

**Amendments to the Claims:**

Please cancel claims 1-4 presented in the underlying International Application No. PCT/DE2003/002252, and add new claims 5-15 as shown in the listing of claims.

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claims 1-4 (canceled)

Claim 5 (new):           A method for testing a browser-adapting server application, the method comprising:

collecting and recording, using another server application, respective key information of a plurality of browser types and/or versions; and

testing an information adaptation method of the browser-adapting server application using the key information.

Claim 6 (new):           The method as recited in claim 5 further comprising adapting the browser-adapting server application.

Claim 7 (new):           The method as recited in claim 5 further comprising evaluating first respective key information of a first information-requesting browser type so as to adapt the browser-adapting server application.

Claim 8 (new):           The method as recited in claim 7 further comprising directly or indirectly obtaining the respective key information of the information-requesting browser type.

Claim 9 (new):           The method as recited in claim 5 further comprising transmitting the key

information to the browser-adapting server application.

Claim 10 (new): The method as recited in claim 6 further comprising comparing first information returned by the another server application to second information returned by the another server application before the adapting of the browser-adapting server application.

Claim 11 (new): The method as recited in claim 7 further comprising comparing first information returned by the another server application to second information returned by the another server application before the adapting of the browser-adapting server application.

Claim 12 (new): The method as recited in claim 5 further comprising providing a database configured to provide the respective key information for the another server application.

Claim 13 (new): The method as recited in claim 9 further comprising providing a database configured to provide the respective key information for the another server application.

Claim 14 (new): The method as recited in claim 10 further comprising providing a database configured to provide the respective key information for the another server application.

Claim 15 (new): The method as recited in claim 11 further comprising providing a database configured to provide the first respective key information for the another server application.
